

GETTING STARTED

Partnership Program

Elevate your brand to the next level by partnering with a creative design agency that has years of experience, knowledge and insight.

WHO IS ORQID DESIGN?

Let us introduce ourselves...

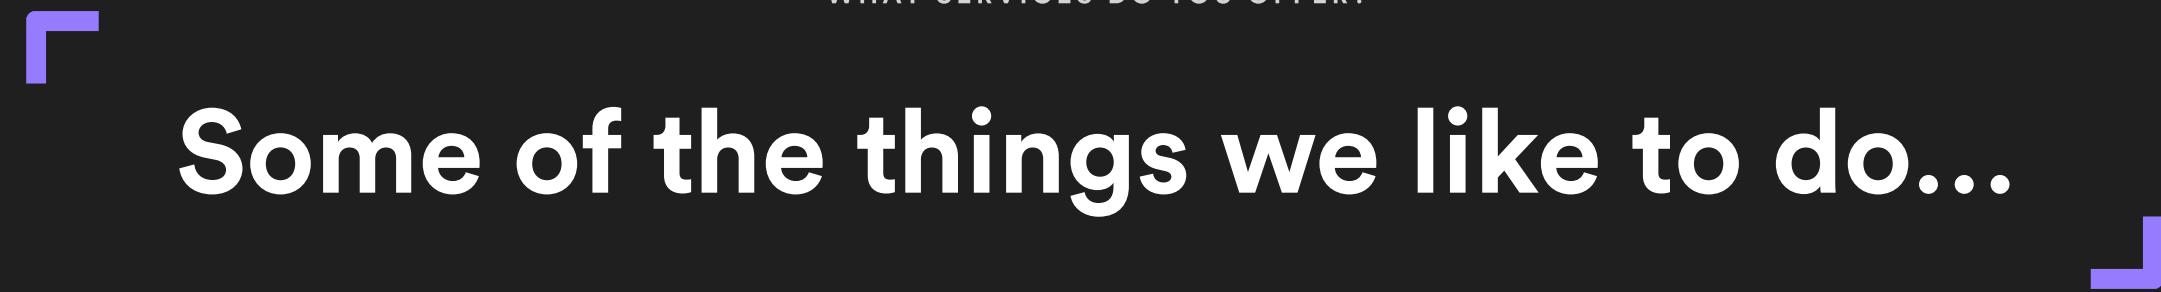

We are a design agency that is passionate about our clients and ideas.

Established in 2007, our company started out with the mantra of empowering our clients with the very best of our creative abilities and the many services that we offer. Over time, with years of additional polish and refinement of our craft, we still value and channel that belief into our work. Our team is made up of a unique combination of talented individuals, with years of digital experience in the tech industry, and a serious affinity for coffee.

WHAT SERVICES DO YOU OFFER?

Some of the things we like to do... 

Some of our great capabilities.

Our industry is known for companies that offer milquetoast solutions or “one-stop shop” type peddling. And this will show in their work. We only offer services that we have proficiently mastered with extensive insight. Whether it is wire-framing, development or SEO, we can offer each service separately or bundled together.

Design.

We collaborate with our clients to produce designs that are creative, crisp and have an intuitive user experience.

UX/UI Design

Wire-framing

Prototyping

Motion Graphics

User Analysis

Product Design

Development.

Over a decade of programming experience gives us the edge when it comes to software and custom development.

Custom Web Development

E-Commerce

Social Networks

Word Press

Shopify

Drupal

Mobile Apps.

Whether it is for iPhone or Android, we build robust and scalable mobile apps for a wide range of industries.

Mobile Design

Content Writing

WHAT ARE THE DETAILS IN REGARDS TO A PARTNERSHIP?

↗ A couple of options moving forward... ↘

Build your brand with us. Join our Partnership Program.

The supply and demand relationship in web development is like peaks and valleys. Some weeks business is slow and other weeks there is a sudden spike in demand. And when things get hectic, you either spread your resources thin, delay projects or simply turn away potential clients.

This is where we come in. We mold our firm to seamlessly fit within your infrastructure so you don't miss a beat. And more importantly, our work conforms to a gold standard level in quality, so your brand can continue to thrive and you can have peace of mind. Our partnership program offers 2 flexible options: White Label and Commission Based.

White Label.

We essentially become an extension of your company. In addition to design and development, we also take on project management and customer relations.

\$65 USD/Hour

Project Management

Customer Relations

Custom Identity(Title, Email)

Flexible Payment Schedule

Commission Based.

You provide us with the lead, and we handle the rest. We pay out a 20% commission for the total sale of the project, along with other incentives.

20% of the Total Sale

10% for all Future Sales

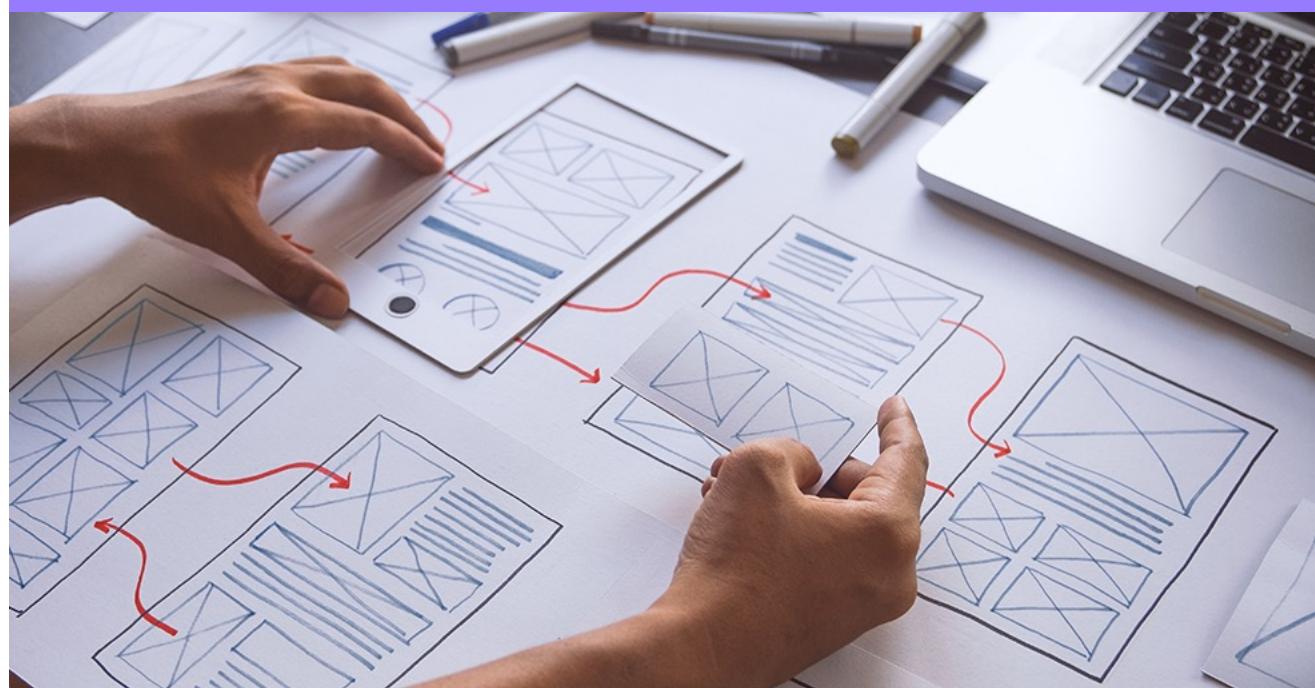

10% for Referral Sales

Frequent Project Updates

Quick Payments

They are responsive, highly skilled, and I rely on them to keep our site tuned.

WHAT IS YOUR PROCESS?

「 A brief glimpse of how we jam... 」

Building digital experiences from start to finish.

Our development process goes through a series of stages, all dependent on one another. Each stage must go through proper exhaustion before proceeding to the next. This enables an orderly transition, which will cement the entire process as a whole.

Even though all of our clients have unique needs, we feel that by providing a proper systematic foundation this will achieve a good balance between planning and execution.

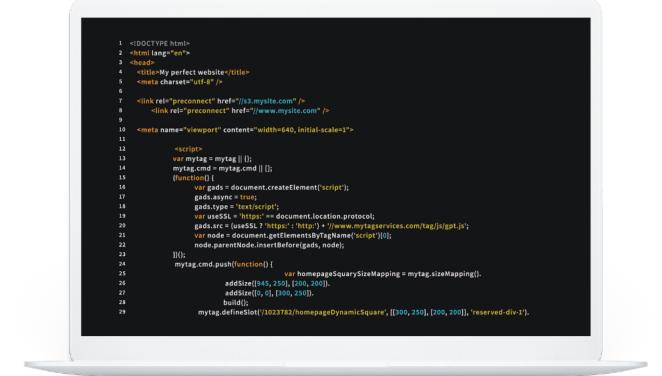

1. Discovery

We use various strategies, ideas, and other methodology to refine the original concept.

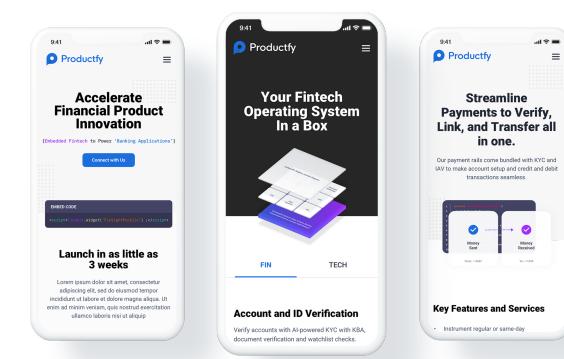

2. Design

The starting point is low-fidelity mockups and concludes with a final design(prototype).

3. Development

Our firm utilizes the best practices to ensure a high performing, clean and efficient code base.

4. Quality Control

Rigorous testing performed across multiple platforms, browsers and responsive sizes.

DO YOU HAVE A PORTFOLIO?

Some examples of our work...

DESIGN & DEVELOPMENT

Businessfriend

Our client wanted to build an app for the mobile professional. The core feature of this project would be an “All in One” communication tool where users can interact and collaborate.

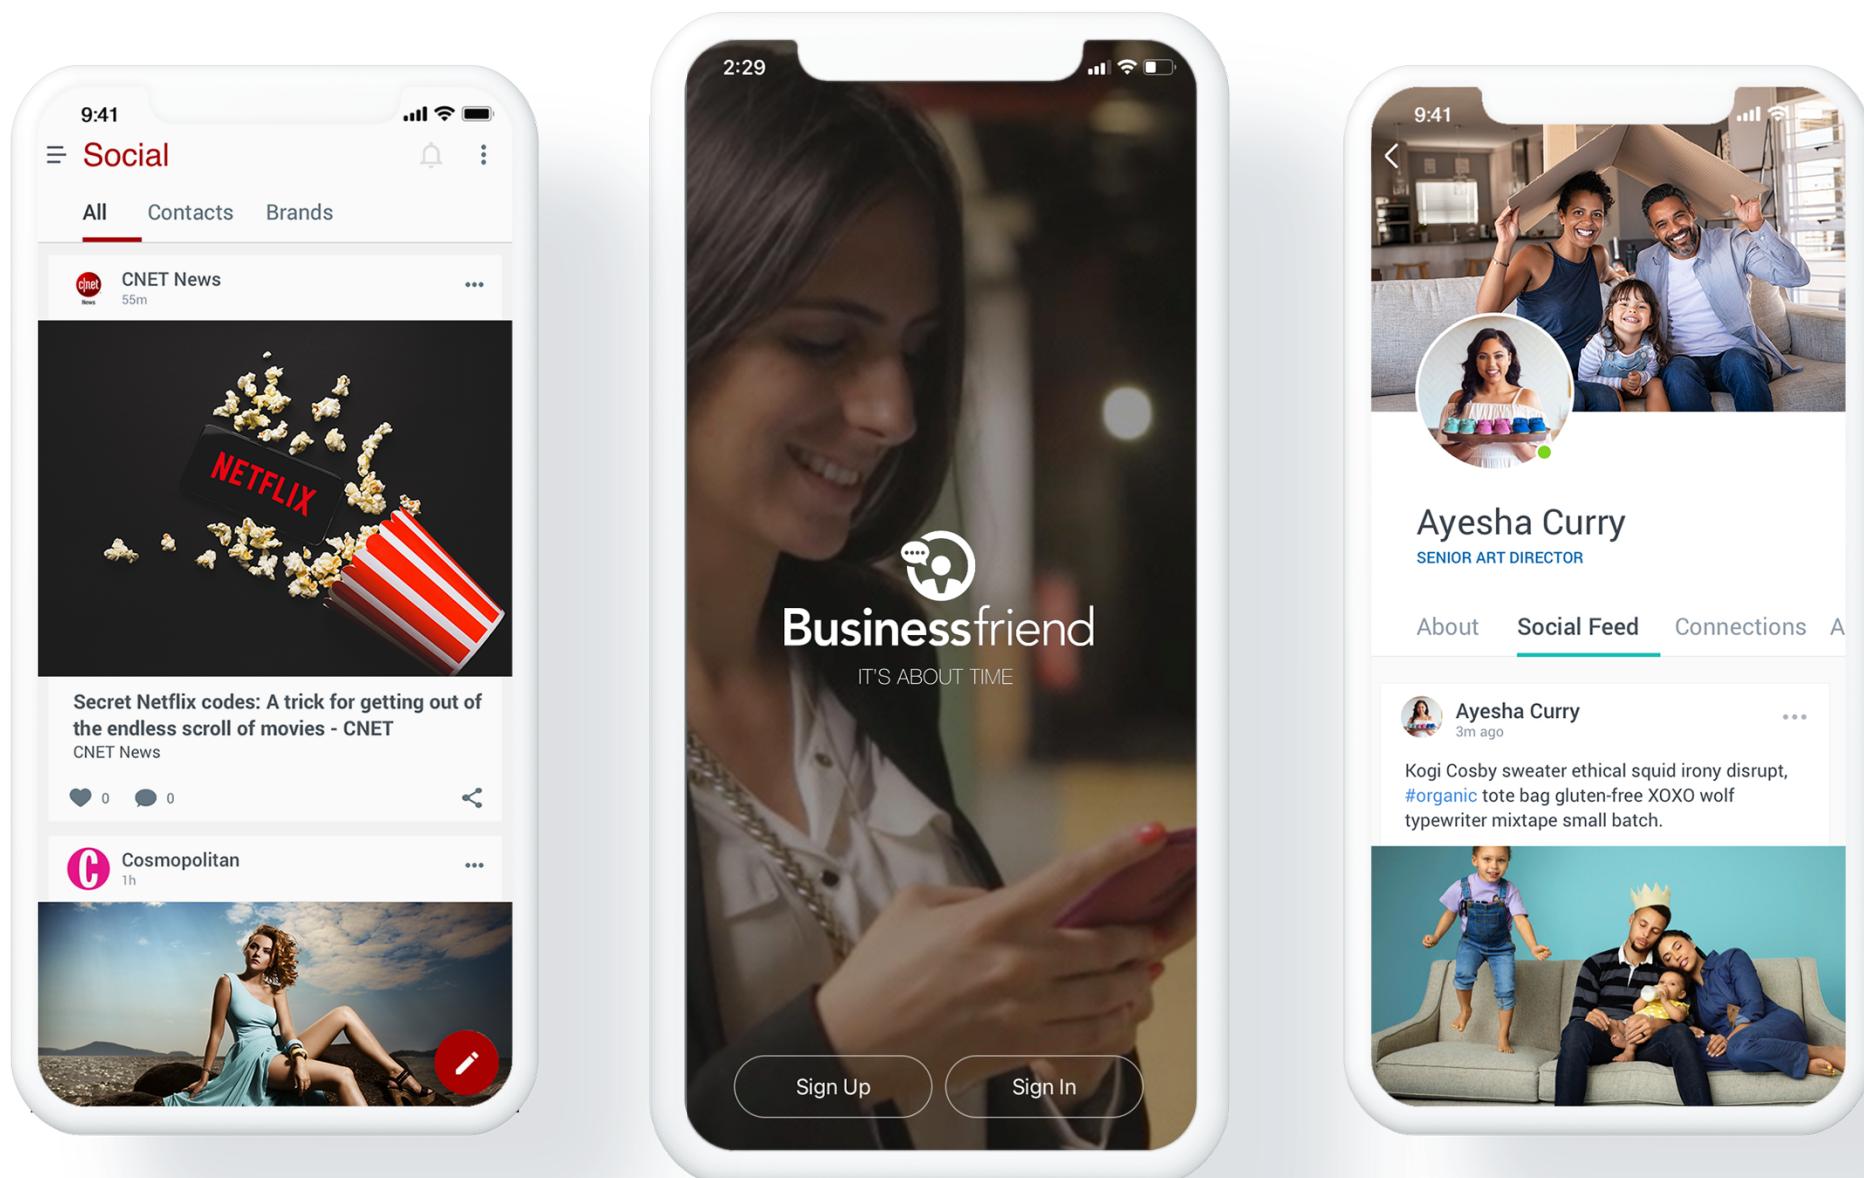

The scope of work included a responsive web version, along with native apps for iPhone and Android. The final result was a state of the art application that seamlessly connects colleagues and peers.

Lyft

Lyft, a popular ride sharing app, needed a Benefits Guide for their employees. In addition, they also wanted the ability to edit the guide from time to time. The solution for this would be a custom CMS.

By the end of the project, we were able to come up with a UX/UI design that was not only modern in terms of look and feel, but also very intuitive and easy to use.

Welcoming Message

Hello and welcome to your benefits dashboard. From here you can see all of the details about your Lyft benefits.

Character limit: 102 / 400

Benefit Eligibility

Any active, regular, full-time employee working a minimum of 30 hours per week is eligible for all benefits effective on the 1st of the month following date of hire. Others eligible for benefits include:

- Your legal spouse or domestic partner
- Your unmarried dependent child(ren), including those legally adopted and stepchild(ren) up to age 26.
- Any dependent child who reaches the limiting age and is incapable of self-support because of a mental or physical disability.

Get a fair renewal rate

Most employers are waaaay overspending for what their people actually get. Lumity brings cost transparency to the murky healthcare ecosystem.

HOW YOU BENEFIT

Lumity brings to the midmarket the kind of data insights that are typically only available to self-funded, big companies—so your renewals move in sync with your actual health risk profile.

Benchmark

We start with a benefits benchmark to find out how your benefits stack up against companies just like yours (size, industry, location, employee base).

Our benefits consultants will analyze:

- Benefits plans
- Plan design
- Contribution structure
- Business goals
- Employee base

Negotiate

We buck the trend of rising healthcare costs by bringing data to the negotiating table. On your behalf, Lumity will:

- Get claims visibility
- Forecast your claims
- Monitor your group's health profile throughout the year
- Assess your risk
- Negotiate a fair renewal

Implementation

We can work with your existing workflows or provide guidance if you're thinking about making a change to your benefits ecosystem.

- Payroll
- HRIS
- BenAdmin
- HSA/FSA/Commuter
- COBRA
- Compliance

Educate

Our services and solutions are designed to help your people choose the health plan that best meets their needs.

- Onsite open enrollment
- Interactive benefits guide
- Mobile advocacy app
- Benefits knowledge base
- Human benefits experts, year-round

Productfy

We were approached by Productfy in late October of 2020 to design and develop their website. The project needed to be complete in 4 weeks, in order to debut at an upcoming trade show.

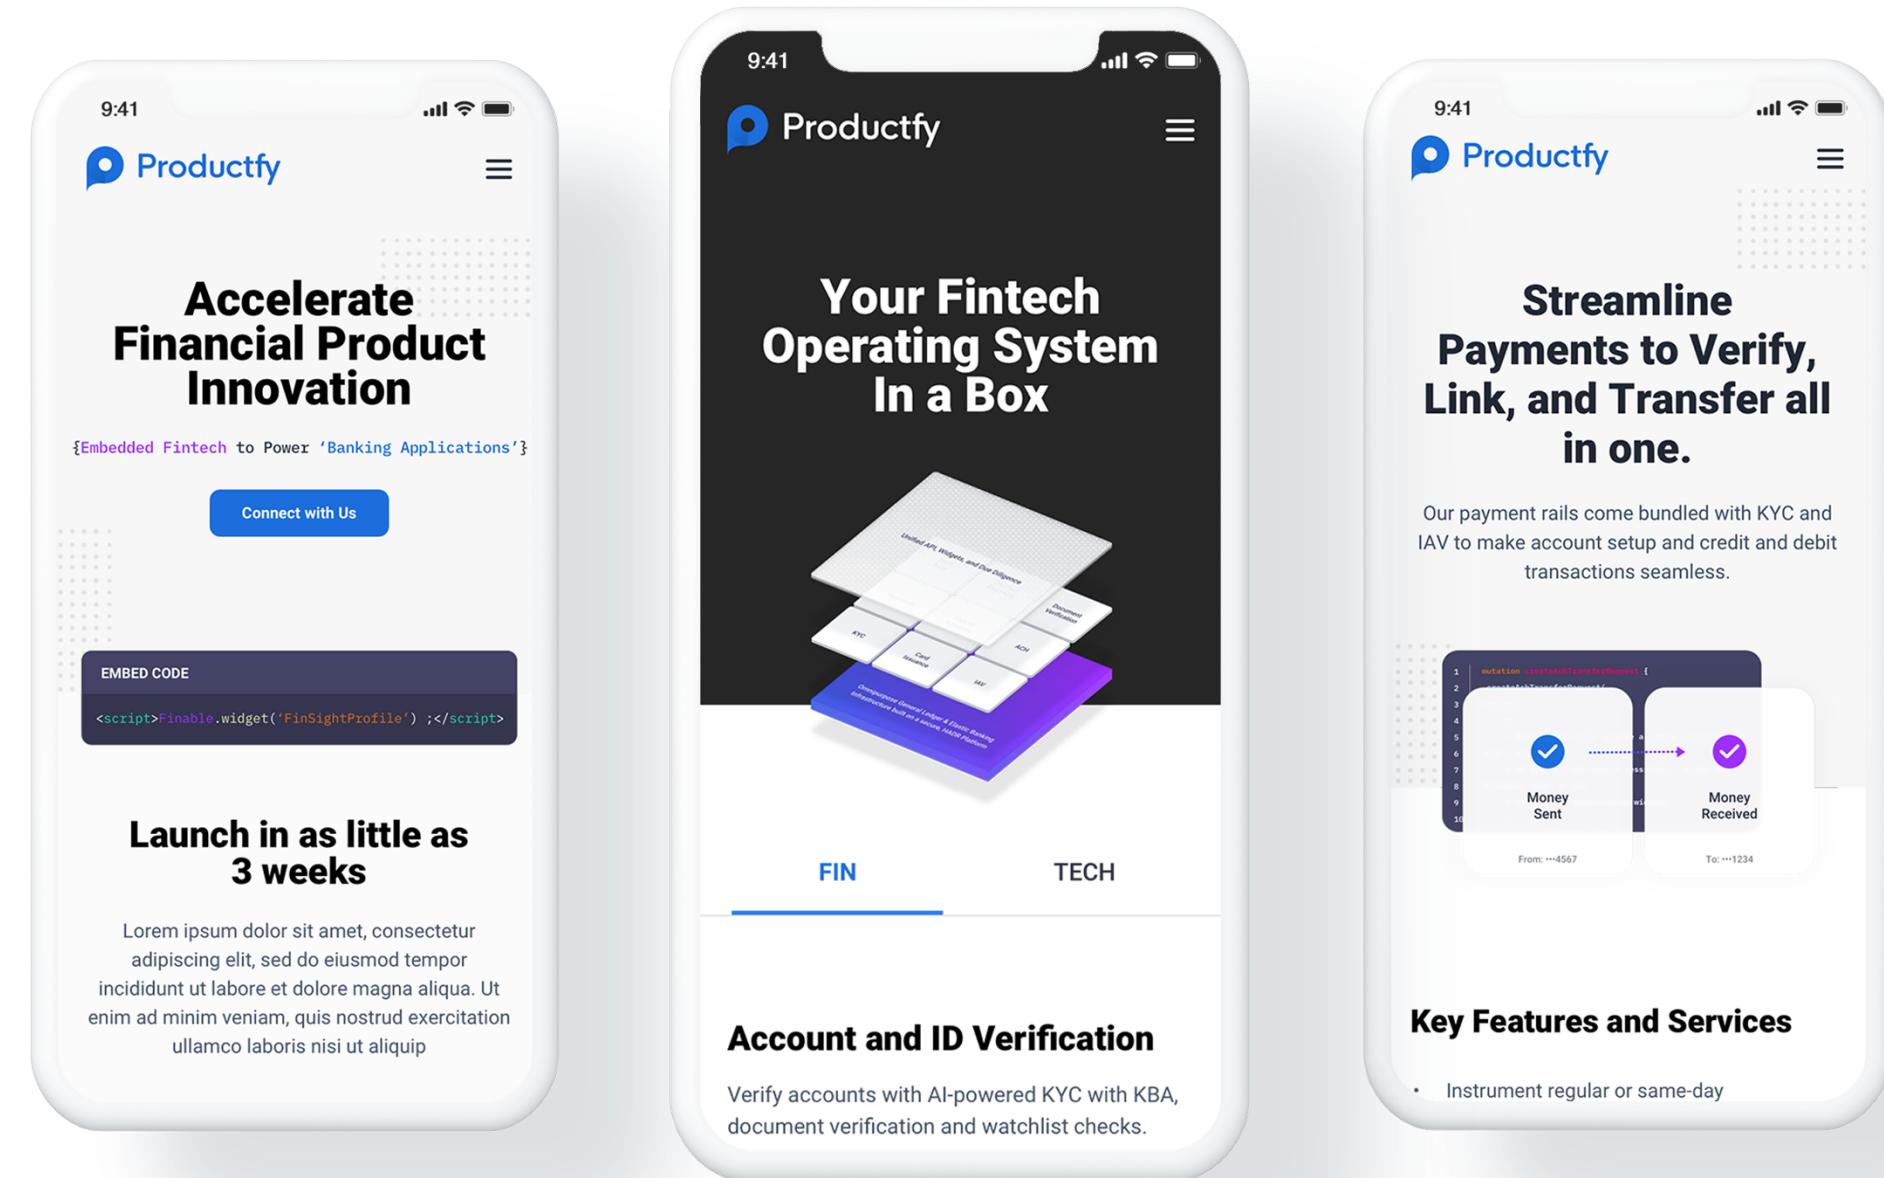

The deadline was not only met, but we were even able to include last minute changes requested by the client. The end result was a stunning new website.

Scandal

One of our partner agencies wanted us to put together some TV and mobile app designs for the popular TV show on ABC, Scandal.

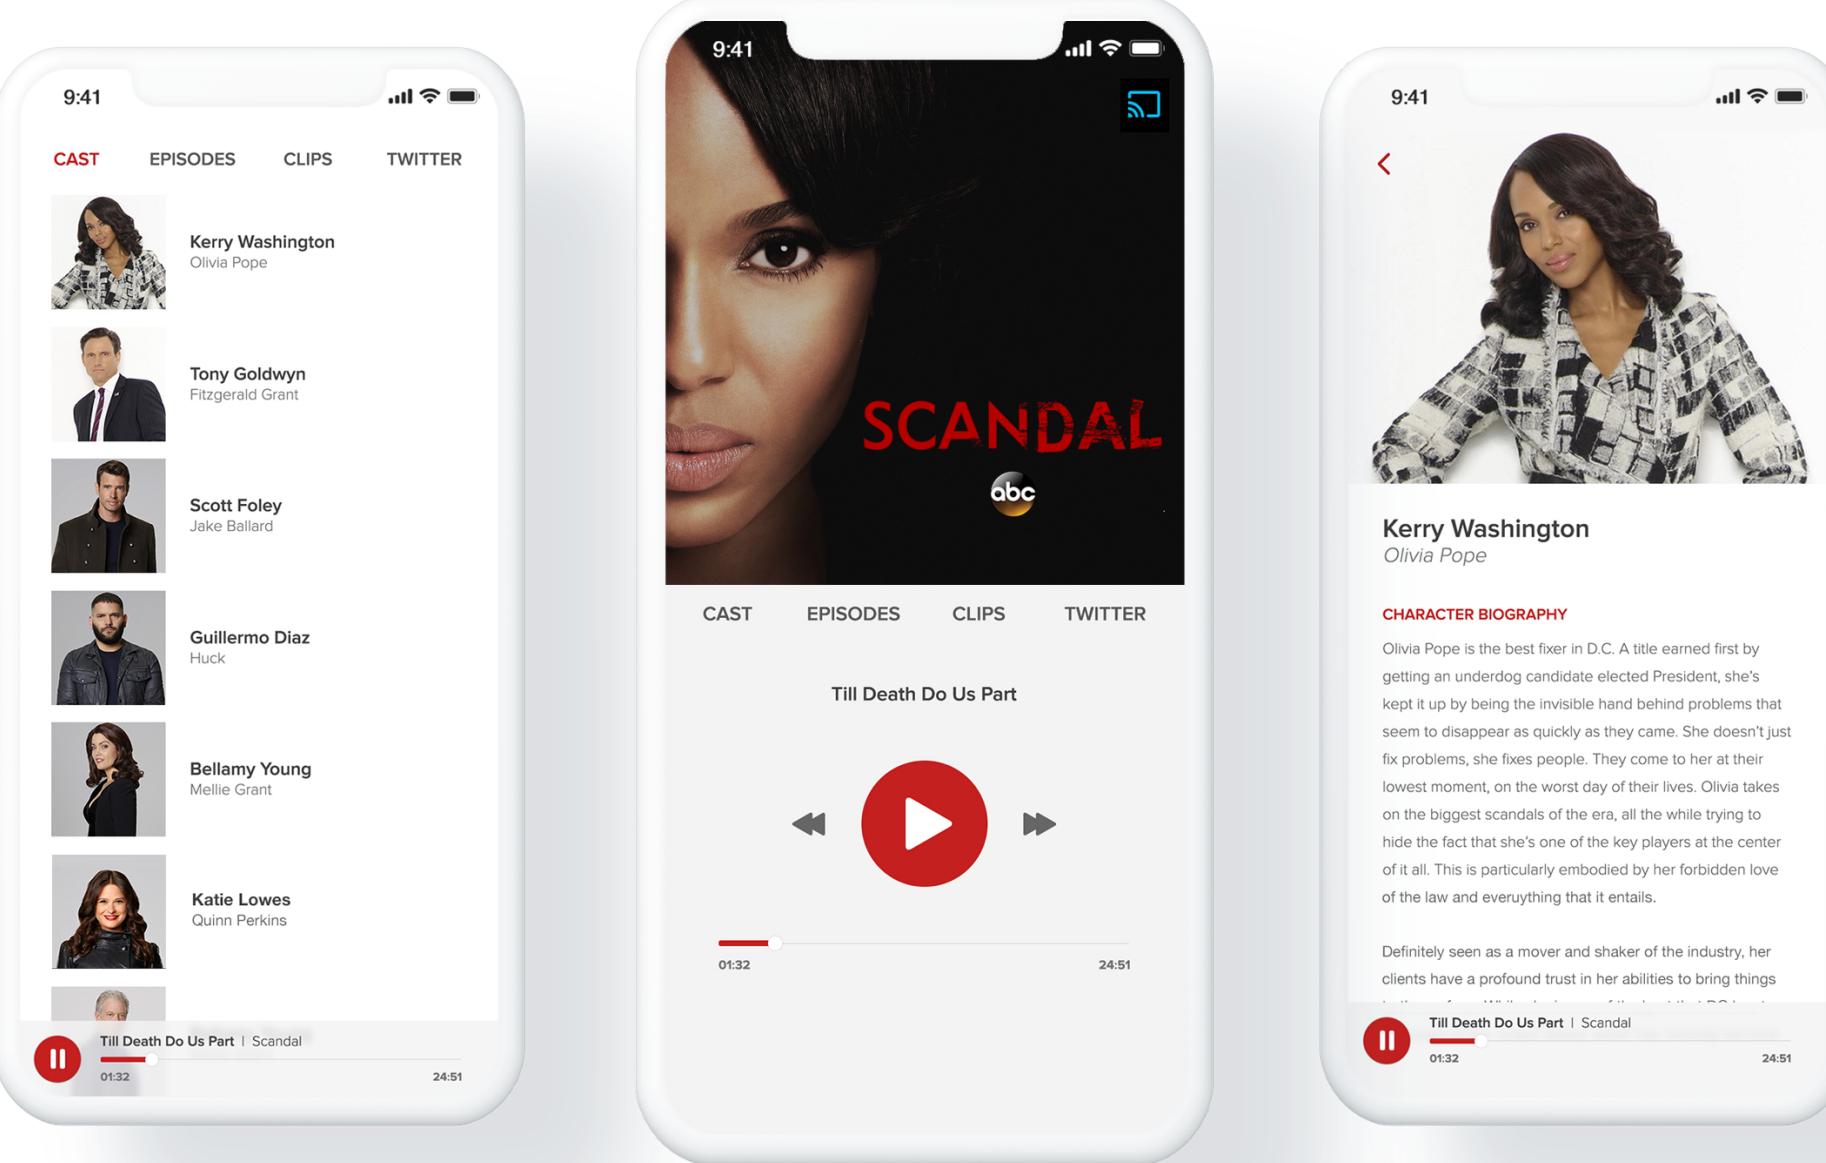

We experimented with a couple of UX/UI wire frames before we decided on our final layout, which we then used to come up with our designs. The end result was a crisp enhancement to the brand.

District

ABOUT US

Avon Grove School District is a K-12 public school system that serves about 5,240 students in four schools: Penn London Elementary School (K-2); Avon Grove Intermediate School (3-6); Fred S. Engle Middle School (7, 8); and Avon Grove High School (9-12).

Geography

The District is located in a rural-suburban setting 34 miles southwest of Philadelphia, Pennsylvania, and 18 miles northwest of Wilmington, Delaware. Avon Grove covers 67 square miles and consists of five townships, namely New London (1704), London Grove (1723), London Britain (1725), Penn (created from Londonderry Township in 1817), and Franklin (1852), which were created and organized in that order. Avondale (1894) and West Grove (1893) are the two boroughs within London Grove Township, and they are the largest population centers in the Avon Grove School District.

Student Demographics

75 percent Caucasian; 19.5 percent Hispanic; 2.5 percent African American; 1.9 percent Asian; and less than 1 percent both American Indian/Alaskan Native and multi-racial.

"The board of school directors shall post the mutually agreed to objective performance standards contained in the contract on the school district's publicly accessible Internet website."

Superintendent M. Christopher Marchese, Ed.D.
